

**KSIS Beginning-of-Year Training
July 22-23, 2015**

**Early Graduation
Questions and Answers**

Kelly Clark, Office of Next Generation Learners, Division of Program Standards

- 1. Question: What should be done with a student who did not meet the criteria to graduate early? For example, a junior last year did not complete and is now enrolled as a senior. Do we remove the flag now?**

Answer: Remove flag, end date the early graduate and add description to explain why they did not complete early graduate program.

- 2. Question: In regard to the survey that is new this year, will this survey be taken by all high school students, or just ones that indicate they are interested in graduating early?**

Answer: This will only be sent to students who have indicated their intent to graduate early

- 3. Question: If a student who has indicated their intent to graduate early withdraws from one school district and moves to another, what is the process for the losing district? For the new district?**

Answer: The losing district records the student's withdrawal and notes what criteria they have completed to that point. The student is "unflagged" by adding end dates to the IEG program flag and the enrollment is marked with the appropriate withdrawal (W) code.

The district the student enters must enroll and flag the student as an Early Graduate – in the "Notes section" the district can put what the student needs to complete.

If the student fails to finish before 12th grade – exit them as directed in guidance document. If they graduate, fill out the end and eligibility end dates and the student's enrollment end status should have a G01 code.
